FROM :

PCS/DCI

SUBJECT :

Request for Supplies and Services

1. It is requested that three movable racks or frames be constructed for Room 538. These racks should be capable of holding two peg board panels on each rack with the panels being placed back to back. The panels may be slipped in and held together with wing nuts or by screws through the frame of the rack into the peg board panel. The peg board panels are now in our possession and of outside dimensions of 6'6 $\frac{1}{2}$ " x 5'9".
